# **INDIA-JAPAN GLOBAL PARTNERSHIP**

## **AN INIATIVE BASED ON A NEW SOCIO-ECONOMIC FRAMEWORK**

- **INDIA- JAPAN GLOBAL PARTNERSHIP is based on a new socio-economic framework that is:**
  - **ENERGY-EFFICIENT**
  - **ENVIRONMENTALLY RESPONSIBLE**
  - **SUSTAINABLE**
- **The model of development, which acts as a basis for such initiatives is aimed towards India and Japan leading this new framework globally**
- **It is structured as an open architecture, which are replicable and scalable in nature so that other nations may subscribe to and adopt it**

**WHY JAPAN and INDIA.....?**

# WHY JAPAN AS A GLOBAL PARTNER?

Fundamentals of any successful partnership are based on three pillars:

- a) Whether there is any conflict with the partner or not?**
- b) Whether the partner is capable or not?**
- c) Whether the partner is willing for the partnership or not?**

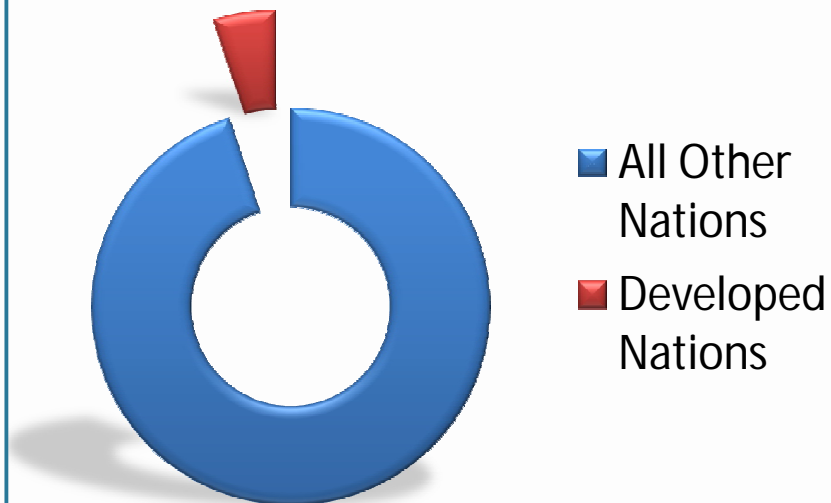

- India and Japan have non-conflicting relations based on a common culture
- India and Japan's socio-economic needs are complementary in nature
- India Center has been working since its inception in 1996, on the building the willingness factor to work together

**WHAT IS VISION BEHIND THE MODEL.....?**

## VISION BEHIND INDIA-JAPAN GLOBAL PARTNERSHIP: The 5% vs. 95% Model

### 5% vs. 95% MODEL

- The 5% followed an resource and energy intense model during their development
- The danger lies in the 95% following the same unsustainable model of development
- The 95% should therefore follow a new socio-economic framework based on energy efficiency, environment responsibility and the sustainability

INDIA – Typical example of 95% model

JAPAN – Hybrid of 95% and 5% model

*(With key learnings, wisdoms and technology)*
